Re: COVID-19 update - return to school after spring break

A version of this letter was sent to all families in the Vancouver School District.

Before the break, as announced by the Provincial Health Officer, face masks became each individual's personal choice in BC and this also applied to all schools in the District as of March 14, 2022. Parents are encouraged to discuss their wishes regarding mask wearing at school with their children.

Other changes in K-12 health guidance was provided to districts just prior to the break. During the week of March 28 to April 1 the school Health and Safety Committee will review these changes and put in place plans to implement them by Monday April 4th. Please also be aware that the province and Ministry of Education have indicated that they will announce further changes impacting K-12 on April 8th.

For those who travelled outside of Canada during the spring break, please keep in mind the Canadian federal government requires: "You and any children who travelled with you must **properly wear a well-constructed and well-fitting mask when in public spaces** for the first 14 days after your entry. This includes schools and daycares." Please visit the Canadian government website for more information: [Travel to Canada: Requirements for COVID-19 vaccinated travellers](#)

As we move into the spring term, we will continue to work together and support one another as a school community.
