Happy Father's Day from Div. 12!

Div. 11 Field Trip

On Tuesday, Division 11 took public transit to Science World. It was a blast! We got to check out the interactive exhibits, like the super cool "Eureka!" gallery with all its fun physics, and the "BodyWorks" exhibit, which taught us a lot about how our bodies work. It was an awesome and educational trip for everyone!

Osler Sports Jerseys

Hello Osler Families! If your child participated on a sport team, please take a thorough look through your home for any grey Osler jerseys and return them to your child's teacher. We are still missing a few and want to have them ready for our teams next year! Additionally, if there are students in grade 7 who have their own jersey and no longer want to keep them, please consider donating them to the school for use in upcoming years. Thank you so much!

Our PAC AGM was last Monday. The Exec. has been voted in. I am looking forward to working with these wonderful parents who give of their time to the school!
