School Assessment Procedures

Student progress will be reported using cumulative assessment. The grade a student receives reflects the student's most recent and updated progress. All *Interim* report cards will include a work habit and comment.

All Mid Semester/Year and Final Semester/Year reports will include a grade, work habit and comment.

Grade 8 and 9 student progress will be reported as a Standard Based Grade using the following proficiency scales: Emerging, Developing, Proficient, or Extending

Grade 10-12 student progress will be reported as percentages.

For any student Grade 8 through 12 who is not yet meeting course expectations they will receive the letter grade "IE" (Insufficient Evidence) with an action plan and timeline to help the student move toward successful completion of the course.

Student Self-Assessment of the Core Competencies

There is a more robust requirement for the reporting of goal setting and student self-assessment of core competencies.

Guiding Principles, adapted from the K-12 Student Reporting Policy:

- Self-reflection and goal setting play a significant role in helping students learn and grow
- Integrating self-reflection across the school year helps students be mindful of their growth in relation to the Core Competencies
- Self-reflection promotes personalization, inclusion, diversity, and student engagement and nurtures student voice
- Self-reflection and goal setting infuse learning with personal meaning and emphasize working toward future possibilities

Student self-reflections on Core Competencies and goal setting are required three times per year. One time will be at the year end.
