### EVENTS, ACTIVITIES AND INFORMATION

#### Solar Eclipse Safety

The next total solar eclipse in North America will be on **Monday, April 8, 2024**. In Vancouver, a partial solar eclipse will take place at 10:40 AM and last until 12:20 PM.

Phase	Time	Event
	10:43:11 Mon, Apr 8	<b>Partial eclipse begins</b> The moment the edge of the Moon touches the edge of the Sun is called first contact.
	11:30:54 Mon, Apr 8	<b>Maximum eclipse</b> The deepest point of the eclipse, with the Sun at its most hidden.
	12:20:01 Mon, Apr 8	<b>Partial eclipse ends</b> The edge of the Moon leaves the edge of the Sun.

Although the Vancouver School District will NOT be in the path of totality, there is still the risk of eye injury. In a partial solar eclipse, the Sun will appear partially covered by the Moon. When watching a partial solar eclipse, proper eye protection is required at all times. If you want to look at the eclipse, only use safe solar eclipse viewers or filters that meet international standard ISO 12312-2.

It is important to remember to NOT look at the Sun through a camera lens, telescope, binoculars or any other optical device while wearing eclipse glasses or using a handheld solar viewer – the concentrated solar rays will burn through the filter and cause serious eye injury.

For more information on total solar eclipse safety, see [NASA website](#).
