Connecting to VSB-Secured WiFi with personal Android Phone or Chromebook

Depending on Android version the fields below may be in different locations on your screen. Choose which settings best matches your devices' WiFi configuration.

Please make sure to "forget" all VSB wifi networks you may have tried to connect to before trying these settings.

If you have VPN or Ad Blocking software on your phone you may need to disable it.

*VSB Service Desk does not provide support for personal devices.
