What does Flexible Instructional Time (FIT) look like?

FIT time is a 40-minute period of Instructional Time built into the schedule on Monday, Tuesday, Wednesday and Thursday that allows students to have some measure of choice and control over their own learning.

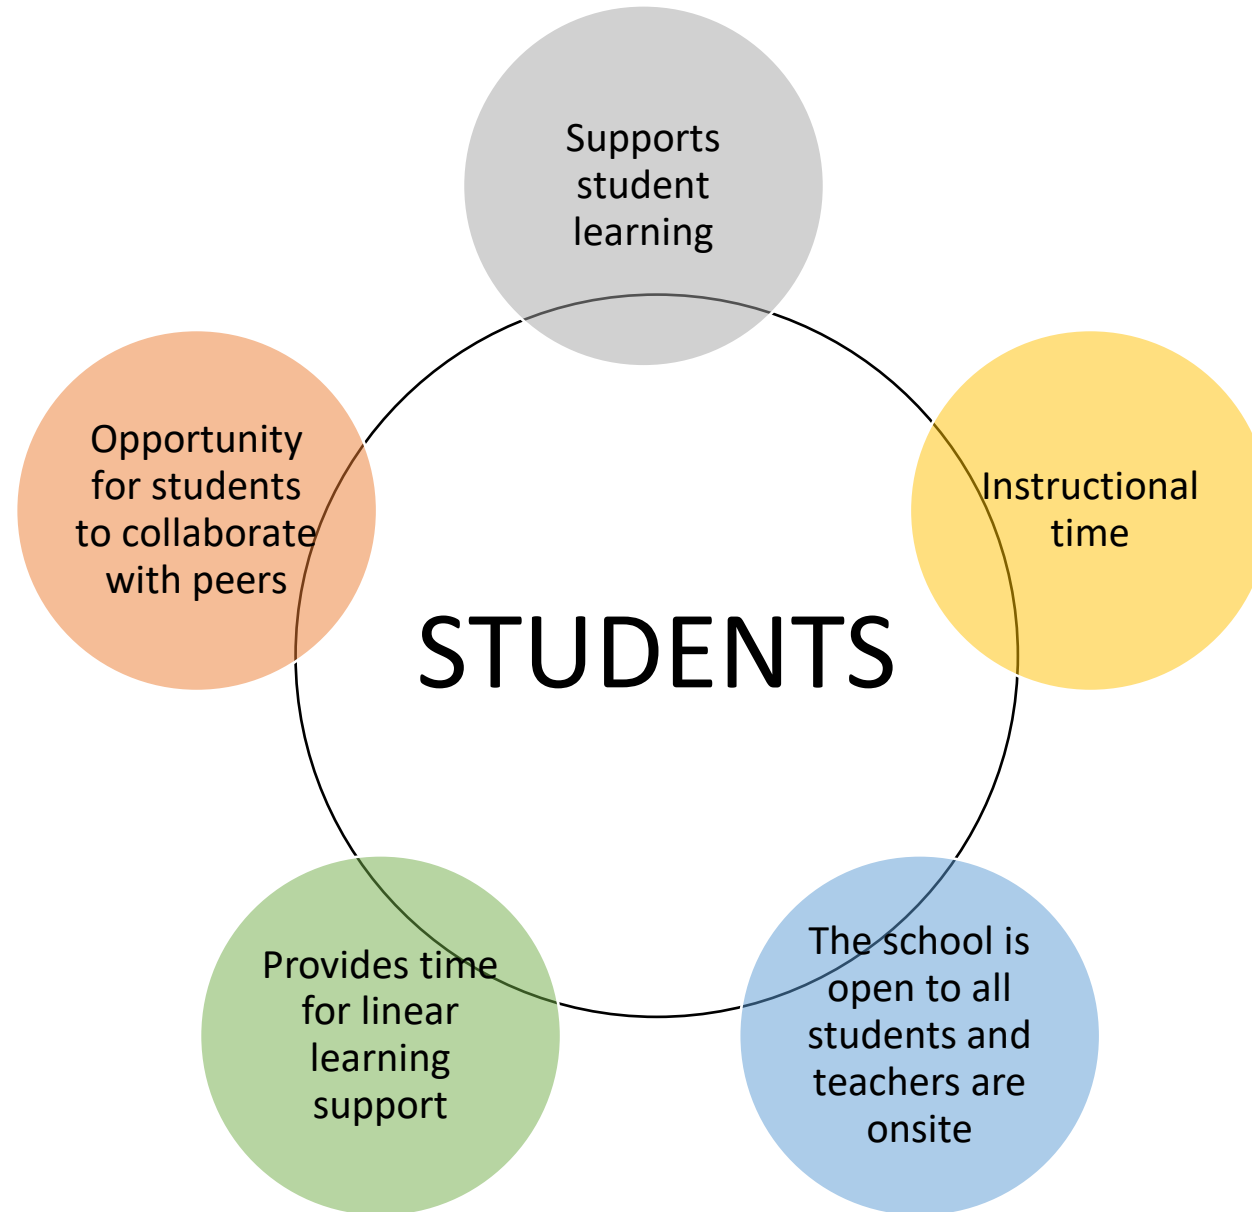

Students are expected to be in a classroom or learning space, completing school work (either individually or in groups), meeting with teachers for support on classwork, working on projects under teacher supervision or getting caught up on missed learning.
