- school placement depends on many factors, including the available school grade spaces, the applicant's age and grade level and anticipated English level. School spaces are limited and subject to change.
- The international program offers English as a second language (ELL) courses for students, as needed. It does not offer special learning needs supports for students.
- Applicants are normally placed in their Canadian age-grade correlated grade.
- Please know that BC high school graduation takes longer than 10 months to complete; VSB schools do not offer accelerated graduation completion within 10 months.
- Early applications strongly encouraged. Application deadline is April 30, 2025.
