Back to School

First Day Thoughts

“The day started with nervous anticipation and uncertainty among our students.

The work we did as a staff to prepare ourselves and to create a safe and welcoming environment paid off.

Once students were settled, their nerves changed to joy as they reconnected with their friends, teachers, and support staff.

The school felt alive once more.”

First Day Thoughts

Nervous anticipation before 9am, but once the children arrived, joy!

Nervousness that transformed gradually into smiles and a sense of calmness.

Joyous to see the faces of our students again.

First Day Thoughts

It was nice to see the smiling faces of our returning staff and students and to hear the happy and friendly banter of staff and students throughout the building.

Remarkable to see staff galvanized in collaboration to provide a safe, welcoming, and enjoyable environment for students to return to.
