

ARE YOU CONSIDERING A FUTURE IN THE TRADES?

PROGRAM OVERVIEW

Careers in the skilled trades, such as welding, carpentry, electrical and automotive service, provide some of the steadiest and most satisfying employment available.

While many university graduates are facing huge debt, low pay or unemployment, students going into a trade are often hired by employers before they have finished their training.

Does this sound like something that might interest you? If so, choosing the **Enhanced Trades program for grade 11** gives you a chance to see which trades suit you. Come to Killarney during Semester 2 to experience multiple trades courses. You will take:

- **Metalwork/Welding 11**
- **Automotive 11**
- **Drafting/Engineering 11**
- **Social Studies 11**

BENEFITS FOR STUDENTS

If you are enthusiastic and find hands-on learning suits you best, then this program is for you. Join the thousands of young people ready to be part of the “maker” revolution”!

Killarney Secondary has a history of strong Technology Education programs. We invite you to be part of this enhancement program and begin your path towards an exciting future!

COSTS TO STUDENTS

A fee may be required based on individual selection of projects.

HOW TO MAKE IT HAPPEN

The next steps are for you to:

- Meet with your Counsellor and parent(s) to plan the program
- Complete the application form (found on the web link below) and send it to Mr. Langford.
