Traffic Changes around Byng

(repeat message from the City of Vancouver’s Engineering Services Transportation Division also included in the March newsletter):

The City of Vancouver is working to improve travel safety through our School Active Travel Program. As part of this work, the City will convert the **3000-3100 blocks of Crown Street**, between W 14th Avenue and W 16th Avenue, into a **one-way northbound street**. We will also swap the “No Stopping 8am-5pm School Days” parking signs on Crown Street into “3 Minute Parking on School Days”.

These changes allow for vehicles to pick-up and drop-off on the east side of the street while northbound vehicles can pass by. In turn, this will help reduce vehicle congestion and encourage safer parking behaviour.

These changes are expected to take effect in summer/autumn 2026. After the one-way is installed, the City will monitor traffic patterns in the area to understand their impacts. If you have questions or concerns about these changes, please email schoolactivetravel@vancouver.ca by **April 1st 2026**.

The improvements on Crown Street will complement the other safety improvements that the City has installed or will soon install next to Lord Byng Secondary and Jules Quesnel Elementary. These include the following:

- Lowered speed limit on W 16th Av from Wallace Street to Discovery Street from 50 km/h to 40 km/h during school hours (Spring 2024)
- Increased walking time for pedestrians to cross along W 16th Avenue at Crown Street and Camosun Street (Spring 2024)
- Installed the median closure at Wallace Street and W 16th Avenue to restrict vehicle access to only allow right turns into and out of Wallace Street, which in turn creates safer vehicle movements through there (Summer 2024)
- Installed new curb bulges and ramps at Wallace Street and W 16th Avenue to shorten crossing distances for pedestrians and improve accessibility (Winter 2026)
- New Rectangular Rapid Flashing Beacons (RRFB) to be installed at Wallace Street and W 16th Avenue to make pedestrians more visible as they cross there (March-April 2026)
- Two-way stop signs along W 15th Avenue between Crown Street and Sasamat Street to have directions swapped, to favour cyclists travelling along W 15th Avenue (Fall 2026)
