

METAL FABRICATION

Program Outline

Metal Fabricators build, assemble, and repair heavy-gauge steel or other metal materials. The work can be in shipbuilding, manufacturing of structural steel, and alongside other metal trades.

Students completing this program could pursue apprenticeship in metal fabrication or transfer their skills to sheet metal work, another Red Seal trade.

An application will help determine which path is more suitable.

Application Process - apply in Grade 11

Start by visiting careerprograms.vsb.bc.ca to download an application. Students are encouraged to discuss the application with a school counsellor and family.

Application Deadline	March 1st
Interview Period	March - April
Acceptance Decisions	April - May
Orientation Session	Late-May

Specific details about the Orientation Session will be included in the acceptance letter. Students must attend along with a parent or guardian.

Program Location & Intake Dates

The Foundation programs take place at the BCIT campus in Burnaby.

The program runs from February to July each year. Graduation requirement courses must be completed in Semester 1.

Additional Information

Eligibility

This program is available to students who hold Canadian citizenship or Permanent Resident status and who attend a Vancouver School Board school or alternative program.
