

School Community Notice

Regular classroom instruction is suspended and the school is closed to students, families and the public. Please do not enter the school.

The health and safety of our students, our staff and our communities is our top priority.

Learning Opportunities

In keeping with BC Public Health Guidelines, students will be provided learning opportunities at home until further notice.

Week of March 30 – April 3

Parents of students can be assured that the school principal/vice principal has been in contact with teachers and support staff who will connect with families and students to check-in and begin to discuss learning opportunities going forward.

Arrangements have been made to continue providing school meals to students who require them. Students will be contacted to inform them how to access meals.

The District will continue to keep the public informed of matters related to the COVID-19 response. Please visit the District website at www.vsb.bc.ca for up-to-date information.
