

November 10, 2020

Dear Tennyson Families,

I am writing to update you with some exciting news on our seismic project!

I am delighted to announce that construction on the new school is almost complete, and we will be able to begin classes in our new building on Monday, December 7, 2020.

I want to assure you that all COVID-19 health and safety protocols and procedures will be in place in the new school building. I know everyone has waited a long time and that we are all looking forward to moving into our new safe, learning environment.

District staff, school administrators, and school staff will be working collaboratively in the coming weeks to minimize disruption to student learning during our move. I will be connecting with you again soon regarding next steps as we work towards transitioning to the new, seismically safe Tennyson Elementary school.

Regards,

Doug Roch

Principal, Tennyson Elementary

Cc: Richard Zerbe, Director of Instruction
Chris Wong, District Principal
