

April PAC Principal's Report April 6, 2021

Indigenous Acknowledgment

Learning is holistic, reflexive, reflective, experiential, and relational (focused on connectedness, on reciprocal relationships, and a sense of place)

This principle reflects the Indigenous perspectives that everything is interconnected, that education is not separate from the rest of life, and relationships are vital.

Outdoor Classroom

Has been completed with stone benches and is ready for use. Teachers are encouraged to be outside as much as possible. We are grateful to have received almost \$13,000 in grants to have this installed.

Photo Day

We have been given the go ahead to do individual photos. We are looking at securing dates with Life Touch and will let families know as soon as we have information. There will be no group photos, unless we can get a composite created; for example, one of each class.

COVID-19

We continue to ask families to limit their social interactions before and after school, especially as the weather gets nicer.
